Subject: 207C Tech Memo

Dear Ted:

Enclosed is a copy of the Tech Memo describing the results of the 207C solidification testing to date. This document includes our recommendations for proposed testing for the final phase of the 207C Treatability Study (LDR Testing).

Quick concurrence with our recommendation by all parties is required to continue in a timely manner. We would like to have a conference call Monday morning to discuss the results provided in the Tech Memo and proposed future work. We are prepared to begin mixing of the final phase on Tuesday.

Sincerely,

Mark P. Speranza
Process Engineer
